Sorry I had to remove the section, there were too many referer-spam-bot hitting the site. They were pretty much a DDoS (Distributed Denial of Service) attack. Hitting this site with over 1000 clients simultaneously ( time frame: 1 min) and asking for the referer page was too much to handle.

Thank you, you stupid spammers!

I don't think I will make such a section again on any site I run.

To honor those who link to this site I'll make "Links to Intersting sites" section. This will be done manually without any script. I hope this reduces the attraction to those kind of spammers, who are unable to set up their bots right.
